

SunStructure Tempo

The **Tempo** is a free standing double sided retractable awning. This system is designed for maximum coverage with up to 360 square feet of shaded living space for terraces, patios, pools and decks. It can also extend seating and retail space for restaurants and shops. Made to be maintenance free, this custom designed powder coated unit offers years of comfortable shaded space for your home and business.

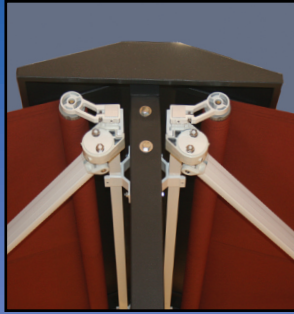

Special Features and Benefits Include:

- Free standing, double sided unit that can be customized with frame color and alternate retractable awning choices
- Heavy duty steel frame
- Ideal for patios, terraces, cafés, pools, and outside seating or dining areas
- Easily extends to shade up to 360 square feet of space
- Control just how much sun to let in
- Motorized or manual operations

GO GREEN on Energy Cost!

Go Green and Reduce Energy Cost

Durasol retractable awnings effectively filter the sun's light creating a cool and relaxed environment. Solar heat gain is greatly reduced by limiting the amount of direct sunlight that enters a window or door.

The use of fabric awnings will **reduce solar heat by up to 90%*** and lower indoor temperatures by 10-15%, thus saving 25%* on air conditioning costs throughout the warmer months.
